

Video Surveyors Wanted

We are recruiting for one or two, maybe even three Video Surveyors to join our incredible team as we scale up for what promises to be a busy 2022.

If you have estimating and surveying experience and want a flexible work from home gig on a part-time or full-time basis using state-of-the-art technology built for the moving industry, get in touch.

We offer a great rate of pay, flexible hours, bonus, some great staff engagement touches, and a chance to work at a company surveying for some of the largest and most prestigious relocation and moving companies in our industry.

Please contact me if you are interested.
